

Autism resources updated

On January 1, 2019, the American Medical Association (AMA) released changes to the Current Procedural Terminology (CPT®) code set. Among the 335 code changes, there were significant revisions to the applied behavior analysis (ABA) codes.

In response to these changes, all autism-related resources have been updated or added to support provider interactions. The following resources are available:

- [CignaforHCP.com](#)
 - o [Applied Behavior Analysis \(ABA\) Assessment Form: CignaforHCP.com > Resources > Forms Center > Behavioral Health Forms > Applied Behavior Analysis \(ABA\) Assessment Form](#)
 - o [Autism Information and Resources: CignaforHCP.com > Behavioral Health Resources > Doing Business with Cigna > Autism Information and Resources](#)
 - o [Billing Codes for Applied Behavior Analysis: CignaforHCP.com > Behavioral Health Resources > Doing Business with Cigna > Billing Codes for Applied Behavior Analysis#](#)
